

## **RENEE MARQUISS, DIRECTOR**

Renee has been helping her customers with their real estate goals since 2009. She feels being involved in the local and state associations keeps her up-to-date on the ever changing real estate market to help her customers with one of their biggest financial transactions. She was a past Florida Realtor Director, chair of the 2020 Florida Realtor Leadership Academy, director for another local association and an active member of several local and state committees and holds several certification and designations.

Giving back to her community that helps her with her career is very important to Renee. In addition to her Association involvement, she is also Treasurer for a local homegrown not for profit, Heroes Welcome Home, that helps Veterans with their homeownership needs.

On a personal note, Renee is mother to two grown sons, grandmother to four and great-grandmother to two. As they all live out of state, she occupies her free time by listening to live music at several venues that we are blessed with on the southwest side of Florida.
